**DETAILED ACTION**

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-54, and 97, drawn to a method, a computer-readable medium, and an apparatus for generating a score for a document comprising the step of gathering sales information associated with said document, classified in class 705, subclass 14.
- II. Claims 55-96, and 98, drawn to a method, a computer-readable medium, and an apparatus for generating a score for a document classified in class 705, subclass 26.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions the inventions are distinct in that each invention

Art Unit: 3625

gathers different information from different sources and in different manners. The specification does not disclose that these embodiments are capable of use together. Moreover, each of these inventions has a different mode of operation.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
